

3/2 and 5/2 directional control valves
Actuation: electromagnetic
Indirectly controlled soft seal spool valves
Port size: G 1/4, 1/4 NPT
NAMUR Interface

For single and double operated actuators

Crossover-free switching, switch-over function guaranteed even with small cross section air supply

Rest position in the event of power failure provided (monostable design)

3/2 or 5/2 way function in one valve

Manual override with detent

Compact design

Simple design of soft seal spool system

Easily interchangeable solenoid

The solenoid valves are applicable in the protection class EEx m and EEx ia, for zones 1, 2 (gases) ATEX cat.II 2 G, EEx nA, for zones 2 (gases), 22 (dust) ATEX cat.II 3 GD

Technical data

Medium:

Filtered, lubricated or non-lubricated and dry compressed air *1)

Operation:

Solenoid, indirectly controlled

Flow direction:

Fixed

Mounting position:

Optional

Port size:

G1/4, 1/4 NPT

Electrical connection:

See solenoid table

Operating pressure:

2 ... 8 bar

Temperature:

Valve: -5* to +50°C

* Please consult our technical service for use below +2°C

Solenoid: see solenoid table

Materials:

Housing: Aluminium anodized

Pilot flange: Plastic (PBT)

Flange plate: Aluminium

Seals: NBR (Perbunan)

Ordering information

5/2 directional control valve, port size G 1/4, solenoid 24 V DC, with connector DIN EN 175 301-803 form A, Protection class IP 65

Type: 9730000.3036.024.00

connector: 0570275

3/2

5/2

3/2

5/2

*1) Oil recommendation: Shell Hydrol DO 32, ESSO Febis K 32 (as of July 1992) or comparable oils with DVI-values < 8 (DIN 53521) and ISO viscosity class 32-46 (DIN 51519).

3/2, 5/2 directional valves, standard design

5/2 way or 3/2 way function (see conversion instructions page 6)

Symbol	Type	port size			Actuation	Operation pressure (bar)	Flow (l/min)	Weight (kg)	Dimensions No.
		1	3, 5	2, 4					
	9730000*	G 1/4	G 1/4	Flange	Solenoid/Spring	2 ... 8	1300	0,42	1
	9730010*	1/4 NPT	1/4 NPT	Flange					
	9731000*	G 1/4	G 1/4	Flange	Solenoid/Solenoid	2 ... 8	1300	0,50	2
	9731010*	1/4 NPT	1/4 NPT	Flange					

* When ordering please indicate solenoid, voltage and current type (frequency).
Outside free of nonferrous metals

Solenoid actuators

Standard voltages 24 V DC, 230 V AC. Other voltages on request.

*3) Certificate of Conformity PTB No. PTB 03 ATEX 2015X

*6) Connector is not included in delivery; Required connectors M/P19063 22 mm industrial standard for 3099 coil, 068003 form B or 0570275 form A

For intrinsically safe circuits, protection class EEx ia IIC T6/T4

Type	Nom. resistance R _N coil (▲)	Required switching current (mA)	Resistance R _{w 50} coil	Required voltage at terminal R _{w 50}	Ambient temperature (°C)	Fluid temperature max. (°C)	Weight (kg)	Dimensions No.	Circuit diagram No.
 3039 *4)	275	42	330	12,3	T6 -40 ... +80 T4 -40 ... +80	T6 +70 T4 +85	0,83	8	13

When selecting an intrinsically safe power supply, the permissible maximum values according to the Certificate of Conformity should be taken in account. On the other hand, the low effective inductivity and capacity can be ignored.

*4) Certificate of Conformity PTB 03 Atex 2134 PTP 03 IEC 2166, CSA -Certificate No. LR 51090-4, FM approved.
Required connector acc. to DIN EN 17031-801 form A or ISO 4400. Installation acc. to requirements of FM and CSA. Connector is not indicated in delivery.
Connector is not included in delivery; required connector: type 0570275 form A.

- 7 Marker

Warning

These products are intended for use in industrial compressed air systems only. Do not use these products where pressures and temperatures can exceed those listed under 'Technical Data'. Before using these products with fluids other than those specified, for non-industrial applications, life-support systems, or other applications not within published specifications, consult NORGREN. Through misuse, age, or malfunction, components used in fluid power systems can fail in various modes. The system designer is warned to consider the failure modes of all component parts used in fluid power

systems and to provide adequate safeguards to prevent personal injury or damage to equipment in the event of such failure.

System designers must provide a warning to end users in the system instructional manual if protection against a failure mode cannot be adequately provided.

System designers and end users are cautioned to review specific warnings found in instruction sheets packed and shipped with these products where applicable.
